How and where do you find the inner strength to pick yourself up and still offer help to others? 	Dr. John Rice	"Remote Work-Technology Tools for Work and Home"

To help make this transition, many colleges and school districts continue to rely on products in the Office 365 family such as Microsoft Teams. Dr. John Rice, the instructional technologist for Blinn College District, will discuss tips and tricks for using Office 365 products, highlighting useful features in these programs and touching on overall strategies for deploying them both on campus and at home.		
	Dr. Alise Cortez	"Grab Your Gusto-Live with Passion and Work on Purpose"
In today's hustle-and-bustle world, who has time for passion and purpose? "I can barely keep up with life - getting the kids to school and everything going on at work. I'm exhausted!" And as working professionals, it seems we leave little time and energy to care for ourselves.
